Becoming A Doctor From Student To Specialist Doctor Writers Share Their Experiences
The novel opens with Aunt Polly scouring the town in search of her nephew, Tom Sawyer. She finds him in the closet, discovers that his hands are covered with ink, and prepares to give him a whipping. Tom cries out theatrically, “Look behind you!” and when Aunt Polly turns, Tom escapes over the fence. After Tom is gone, Aunt Polly reflects sadly on Tom’s mischief and how she lets him get away with too much.

Tom comes home at suppertime, his face still red from the beating, but he has about his adventures. During supper, Aunt Polly calls with the news that Tom has been skipped school that afternoon and that everyone has seen his clothes in the laundry. Aunt Polly is satisfied. Tom has sworn the diet and confesses his guilt. He promises to never do it again.

Tom and the new arrival completely change the household; Tom’s aunt becomes more strict and eventually chases the newcomer all the way home.

When he returns home in the evening, Tom finds Aunt Polly waiting for him. She notices his dirtied clothes and resolves to make him work the next day, a Saturday, as punishment.

On Saturday morning, Aunt Polly sends Tom out to whitewash the fence. Jim passes by, and Tom tries to get him to do some of the whitewashing in return for a “white alley,” a kind of whistle. Jim almost agrees, but Aunt Polly appears and chases him off, leaving Tom alone with his tasks.

Tom comes home at suppertime. He is feverish and wild, and full of boasts about his adventures. During supper, Aunt Polly asks him about school. Tom has been skipped school that afternoon and went instead to the river to whittle. He returned late and showed her that his collar is still seared from the hot sun, but said, Tom’s half-brother, Joe, had taught him to disguise his collar. Aunt Polly is satisfied.

Tom goes out of the house in the dark and finds his raft, his gun, and his dog, Becky. He fuses the gun and eventually chases the newcomer all the way home.

Becoming a doctor is a dream come true for many people. There are many steps and hurdles that must be completed. The road to becoming a doctor is long and hard but, as many doctors have found, it is well worth it for those who have a calling for the profession.

Here are all the major steps I'll cover in more detail in this post:

1. Do well in high school.
2. Get into a great college.
3. Take the MCAT (and get a good score).
4. Apply and get into medical school.
5. Become a licensed doctor by passing your boards.
6. Choose your specialty and complete your residency.

The overwhelming importance of storytelling in the medical field is reflected in Becoming a Doctor, within which we see what goes into the formation of a doctor. Perhaps I should not phrase it like that: Lee Gutkind, the editor of this anthology, describes doctors not as extraordinary people, but as everyday people who have chosen a particular path. The book is a collection of personal narratives from medical students and doctors, each sharing their experiences and insights into the world of medicine.

Worse, the cost of becoming a doctor has soared, with higher education expenses leaving the average newly minted physician with $166,750 in medical school debt, while average salaries are...
