Spectacle Lenses Theory And Practice 1e
The novel opens with Aunt Polly scouring the house in search of her nephew, Tom Sawyer. She finds him in the closet, discovers that his hands are covered with jam, and prepares to give him a whipping. Tom cries out theatrically, "Look behind you!" and when Aunt Polly turns, Tom escapes over the fence. After Tom is gone, Aunt Polly reflects sadly on Tom's misconduct and how she lets him get away with too much.

Tom comes home at supper time. His mother tells him that he will not be skipped school that afternoon and must return to his books. Tom, however, is not interested in his studies. He has been to the harbor and sees that his mother is still away from home, but her sister, Aunt Polly, is satisfied.

Tom and the new arrival of the untamed Tom Sawyer are not on speaking terms. While wandering the streets of St. Petersburg, Tom and the new arrival, Huckleberry Finn, eventually meet and become friends. When he returns home in the evening, Tom finds Aunt Polly waiting for him. She notices his dirty clothes and resolves to make him work the next day, a Saturday, as punishment.

On Saturday morning, Aunt Polly sends Tom out to whitewash the fence. Jim passes by, and Tom tries to get him to do some of the whitewashing in return for a "white alley," a kind of mock duel. Jim almost agree, but Aunt Polly appears and chases him off, leaving Tom alone with his trowel.

The Exam Preparation for Opticians is geared for those studying for their spectacle certification exam. The spectacle package contains six workbooks and audio compact discs, designed to be used together.

Contact Lens Theory can be a challenging subject to teach and to absorb because most students are more familiar with spectacle lenses as they are initially introduced to refractive errors, how light bends through different mediums, and how spectacle lenses correct vision.

In the last of three articles under the heading of anisometropia, Andrew Keirl discusses single vision and multifocal spectacle lenses for the compensation of vertical differential (relative) prismatic effects.

This course offers the student the opportunity to apply the theoretical knowledge acquired in Contact Lens Theory I. Students learn the procedures for safely fitting soft and rigid lenses as well as the operation of the keratometer, slit lamp, radiuscope and rigid contact lens modification.
